Re: Carrier/Collierville Superfund Site  
Water Treatment Plant #2

Dear Mr. Wong:

Please accept this letter as a USEPA Region IV direction to temporarily shut down the City of Collierville Water Plant #2. The purpose of the temporary shut down is for taking water level measurements from on-Site monitoring wells, piezometers and the downgradient cluster well currently being installed. The time length for shutdown should not last more than one week.

Should you have any questions, please give me a call at (404) 347-7791.

Sincerely,

Beth Brown  
Remedial Project Manager
